PROJECTS

NETFLIX · JAVASCRIPT, HTML, CSS

Inspired by Netflix this project makes request to the IMDB API. Replicating the Netflix search features, a user can search for movies and tv shows. Users can hover movie cards to get more information.

RACING GAME · JAVASCRIPT, HTML, CSS, CANVAS

Designed using JavaScript, HTML, Canvas & CSS this single player racing game allows players to race from point a to point b. With a focus on object-oriented programming the goal of the game is to dodge objects while collecting points within a set time.

CALCULATOR · JAVASCRIPT, HTML, CSS

Basic calculator that allows users to calculate simple math functions.
